NICK (BACH) TRAN

Calgary, AB | 587-228-4368 | nicktranbach@gmail.com

Cybersecurity student at SAIT with hands-on experience in phishing simulation, threat detection, and security analysis through practical lab and project work. Seeking an entry-level SOC Analyst or IT Security role.

TECHNICAL SKILLS

- **Operating Systems:** Windows Server 2022, Kali Linux, Ubuntu
- **Networking:** TCP/IP, Wireshark, VPNs, Routing & Switching
- **Security Tools:** Nmap, Metasploit, Burp Suite, LinPEAS
- **Cybersecurity:** Phishing Analysis, Threat Detection, Vulnerability Assessment
- **Programming:** HTML, CSS, JavaScript, Basic Python
- **Systems:** Active Directory, GPO, Firewall Configuration

ACADEMIC PROJECTS

SSH Automation Email Phishing Attack | SAIT **Dec 2025**

- Developed SSH-based script to simulate phishing attacks in a controlled lab environment
- Demonstrated credential harvesting techniques and analyzed vulnerabilities
- Created video demo explaining attack workflow and mitigation
- GitHub: github.com/NickTran11/linuxsecurityupdate

Phishing Awareness Training Game ("Phisher Bait") | SAIT **Mar 2026**

- Built interactive web-based game to educate users on phishing and social engineering
- Simulated real-world email and social media attack scenarios
- Developed using HTML, CSS, JavaScript
- GitHub: github.com/NickTran11/masterbait-3

Cybersecurity Labs Experience | SAIT

- Conducted malware analysis and security testing using virtual lab environments
- Performed basic incident response analysis and identified indicators of compromise (IOCs)
- Simulated attack scenarios and analyzed system vulnerabilities

PROFESSIONAL EXPERIENCE

Lead Volunteer Teacher Assistant | St. Vincent Liem Church **Sep 2023 – Present**

- Led classrooms of up to 30 students
- Demonstrated leadership, communication, and teamwork
- Organized activities and mentored younger students

EDUCATION

Cybersecurity Diploma Southern Alberta Institute of Technology (SAIT), **Sep 2024 – Apr 2026**

- **Relevant Coursework:** Ethical Hacking, Network Security, Digital Forensics, Linux System Administration.

CERTIFICATIONS & AWARDS

- Certificate of Basic Safety of JobSafe Program, 2023, SafeGen
